

HEALING HANDS
2019 Report of Pastor and Congregation

Our theme at Annual Conference this year was Healing Hands and we acknowledged that healing hands offer hope, help, and healing. Describe tangible ways your church has been the healing hands of Jesus in your community this year.

Who did you reach out to?

How did you help them?

What needs did you address?

Describe personal interactions as well as giving.

How did they know you were helping in the name and love of Jesus?

Is this a new ministry and is it on going?

How did this interaction impact both the church community and those with which you shared hope and help?
