Devastating earthquake in Nepal claims lives, destroys property

Nepal, April 25, 2015: A shallow earthquake measuring 7.9 magnitude struck west of the ancient Nepali capital of Kathmandu on Saturday; killing thousands of people, injuring many more, and destroying buildings.

The General Board of Global Ministries of The United Methodist Church, through its disaster-relief arm and in conjunction with longtime local and international partners and Nepal-based Global Ministries missionaries, is responding to the devastating earthquake that rocked Nepal April 25.

The United Methodist Committee on Relief (UMCOR), Global Ministries' relief and development unit, approved a grant of \$90,000 for international partner GlobalMedic to bring sorely needed clean water to survivors through provision of household and public water-filtration units.

UMCOR also is in conversation with United Mission to Nepal (UMN), a partner in community-based health and education projects in Nepal for more than 60 years.

"Global Ministries has been in mission with the people of Nepal a long time, and that is a great grace in this time of need," said Thomas Kemper, who heads the organization. "Our long-established and current work in the communities, especially through UMN, spurs our response."

That response is assisted further by the fact that UMN had the foresight to assign one of its officers to participate in UMCOR's most recent regional disaster

readiness and response training, which was just held in the Philippines in February.

Rev. J. Denise Honeycutt, who leads UMCOR, pointed out that the regional trainings "fortify our partners' capacity to respond quickly and efficiently to crises. The technical training UMN received helps UMCOR connect with UMN to respond to the most vulnerable people impacted by this earthquake."
